DESIGNED IN **FRANCE**

BOLD INNOVATION HIGH STANDARDS FREEDOM

WHEN LUXE AND TECHNOLOGY MEET

Founded in September 2012 by vape enthusiasts, JWELL™ has become in less than two years the French Leader in the market of e-cigarettes.

Our ethic is simple: to look after every last detail of the vape, from design to marketing, with the motive of bringing pleasure to the customer, beginners or advanced vapers, in a healthy way.

Our Research and Development Office, designs and controls the manufacturing of exclusive models, from the occasional e-cigarettes to the drippers, as well as an entire range of accessories.

Our **200 store network** provides set prices in France and abroad, and expands our vape culture: a safe pleasure, a journey through the senses, freedom.

JWELL™ IS COMMITED
To the consumers' health

Vape is a positive innovation, healthy and cultural. Combining science, the art of taste and technology, it eliminates the risks of smoking and provides an exquisite vape experience. To make sure you are enjoying a 100% safe vape, JWELL™ continues to invest in research and quality.
The materials used in the manufacture of our e-cigarettes are inspected and tested by independent experts.

BATTERY **2200mAh**
*available in all colors

BATTERY **1100mAh**

LED Control System

With its diameter of 19mm and almost 10cm length, the J MINI™ is a really compact e-cigarette.
The ability to refill it at the top and recharge it through a micro usb port make it practical and easy to use.
Its performance however is no small matter, with its BTC™ + providing an intense volume of steam.

PMMA TANK
(plastic tank)

- Battery: 1100mAh / 2200mAh (longer version)
- Atomizer capacity: 2.5ml
- Coil: BTC 0.5Ohm
- Adjustable Airflow + Refill from Top + Micro USB
- Connection: 510
- Dimensions: 115mm (with Drip Tip) x 19mm (diam.)
  100mm (without Drip Tip) x 19mm (diam.)
- Available colors: Black, Matte Chrome, White, IP Blue, IP Purple and IP Grey

MS **MAGNET** SYSTEM

LCS **LED CONTROL** SYSTEM

EC **EASY CLIP** SYSTEM

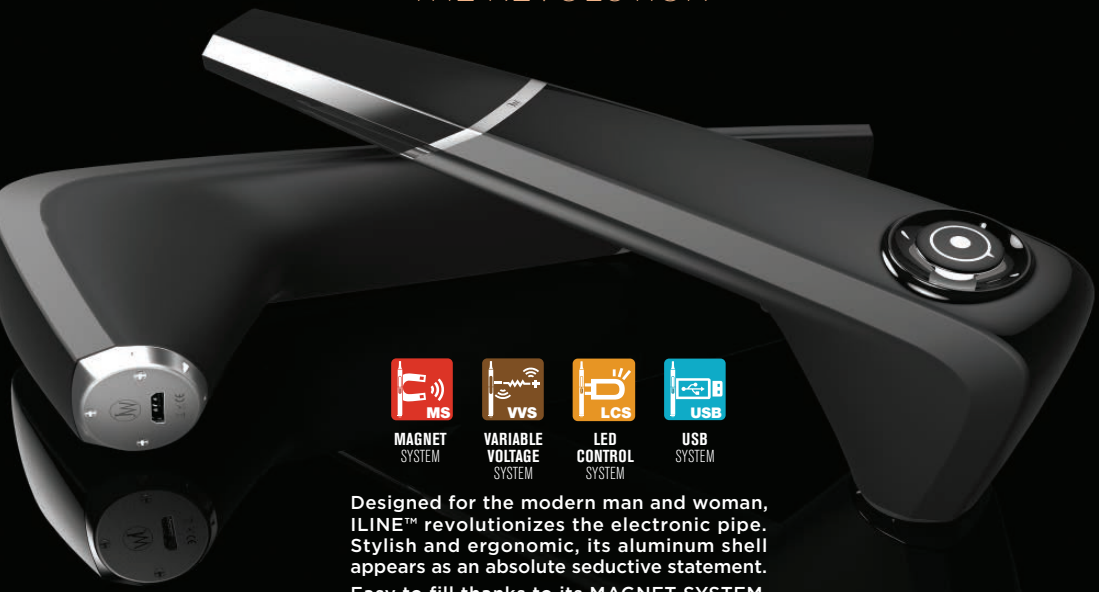
USB **USB** SYSTEM

What a beautiful evolution! Inova™ pulls out the best of design to offer a colourful and a beautiful effect. Additionally, its unique filling system and rapid change of tank make it the ideal daily electronic cigarette.

- Battery: 550 mAh
- Level Battery Warning System by LED + Automatic Circuit-Breaker (10s) + Micro USB
- Connection: Magnet System
- Clearomizer: Rechargeable
- Resistance: 1.8 ohms
- Capacity: 1,8 ml
- Drip tip: Easy Clip (flat)
- Weight: 35 g
- Dimensions: 136 x 17 x 11 mm
- Vapor: Hot
- Available in 5 colors

ILINE™

THE REVOLUTION



MAGNET SYSTEM

VARIABLE VOLTAGE SYSTEM

LED CONTROL SYSTEM

USB SYSTEM

Designed for the modern man and woman, ILINE™ revolutionizes the electronic pipe. Stylish and ergonomic, its aluminum shell appears as an absolute seductive statement.

Easy to fill thanks to its MAGNET SYSTEM, ILINE™ is equipped with a backlit knob and allows you to modify the power (3.3V-4.8V) and obtain a subtle vapor that will suit your taste.

ILINE™ is an intelligent pipe: when it is 15% charged, the LED changes color and indicates that your pipe needs to be recharged.
ILINE™ comes in a luxurious box set with a wall-charger, a micro USB charger and a spare clearomizer.

- Battery: 2 Times 350 mAh or 700 mAh
- Level Battery Warning System by LED + Automatic Circuit-Breaker (10s) + Micro USB
- Clearomizer: Rechargeable
- Resistor: 2.6 Ohm
- Capacity: 3.5 ml
- Drip tip: 1 Plat (Plastic)
- Weight: 270 g
- Dimensions: 165 x 34 x 55 mm

Rechargeable Clearomizer

PASSY™

A REAL GEM

With a battery of 1050 mA and power up to 15W, the Passy™ impresses with its micro size, high quality vape (flat signal) and its ability to recharge via USB. Beginnnig vapers agree - this will find its place in your pocket.

VARIABLE VOLTAGE SYSTEM

ONYX™ 75

75W OF POWER

ONYX™ represents the future of vaping! This smart box delivers up to 75W and offers two modes for temperature control. The first one is called 'temperature limit' and allows not to go above a certain value set by yourself even if the desired power has to go above. We have added an exclusive mode called 'Temperature Control'. With this mode, you will only need to take into consideration the temperature at which you need to vape. ONYX™ will take care of the rest. Furthermore, in case you forget to fill in the tank, no more risk to burn your coil. ONYX™ is here to protect you! Used with NI200 resistance, Titane for temperature control mode or even with Kanthal with variable power, the vaping possibilities have no more limits.

DUPLX™

ATOMIZER REVOLUTION

DUPLX™ is a new 22m diameter atomizer (510 compatible) that can be used on your favorite mod or box. In its case you will find the complete kit for use both with BCS™ or pure rebuildable resistances (single or dual coil), thanks to its ingenious head integrating a unique liquid flow control. Whether you use a little liquid or a big dose of VG, you can enjoy it in this new generation atomizer. As a bonus included in the kit is the top dripping head replacing the tank. It is provided with two adjustable side airflows and fins for cooling the material quickly. DUPLX™ also features a 2 in 1 airflow system that will delight all vapers no matter how they inhale. The large airflows on the sides can be used for direct inhalation - the small airflows will create the classical two times inhalation.
